

I do not understand why Sinclair Broadcasting is being allowed to air what appears to be free advertising for the Bush/Cheney re-election campaign. This anti-Kerry documentary is being portrayed as if it is 'news.' It is simply an attempt to tip the balance in swing states to Bush/Cheney before the November election. Sinclair uses the public airwaves free of charge, and is supposed to be serving our interests -- all of us, not just one side of the political spectrum. They are misrepresenting what they are doing and should be stopped. Do you have the power to stop this "illegal campaign contribution?" Thank you for listening and hopefully responding to my question.
